RAM® Tough-Claw™ Small Clamp Base with RAM® Pin-Lock™ Pattern

Part #: RAP-400NBU **UPC:** 793442950896 **Patent**

Pending

PRODUCT INFORMATION

OVERVIEW

The RAM Tough-Claw™ is the perfect mounting base for quick and easy tool-less installation and removal on round, square, odd shaped rails and bars. The Tough-Claw™ can be clamped on rails from 0.625" - 1.14" outer diameter. This configuration comes with a #10-24 nut in the claw so you may bolt on whatever you need directly to the claw to create a mount. Perfectly suited for mounting on the yoke of an aircraft, handlebars and seat posts of bicycles, kayak rails, roll bars and much more, the RAM® Tough-Claw™ will soon become another essential RAM® component in your collection of mounting options.

SPECIFICATIONS

CLAMP RANGE	.625" - 1.14" diameter
MATERIALS	High strength composite
PACKAGING TYPE	Poly Bag
WEIGHT	0.28 lb
