GDS® Powered Dock for Zebra ET401 & ET4x 10" with IntelliSkin®

Part #: RAM-GDS-DOCK-ZE21PU **UPC:** 793442923432 **Patented & Pats. Pend.**

FEATURES

- Powered dock featuring GDS® Technology™ and RAM® EZ-Roll'r™ provides charging capabilities for the Zebra ET401, and ET40 & ET45 10" enterprise tablets with IntelliSkin® Next Generation protective sleeve via USB Type-C for power; MIL-STD 810G Shock and Vibration tested
- When connected to a power source, integrated pogo pins provide power to the device while docked; Dock accommodates tablet add-ons such as the Expansion Back and PowerPack Battery; tablet scanning works while tablet is docked
- Compatible with C and D size RAM® 4-hole AMPS and 75mm x 75mm VESA pattern bases for attaching a double socket arm; ball and socket technology allows for near-infinite adjustability
- Built-in 2-hole mounting plate for additional device mounting such as a phone; compatible with RAM® 2-hole diamond bases and accessory side bracket
backed by a 3-year warranty

PRODUCT INFORMATION	
OVERVIEW	<p>Featuring GDS® Technology™ for charging capabilities, the GDS® Vehicle Dock (RAM-GDS-DOCK-ZE21PU) works with the Zebra ET401, ET40, and ET45 10" enterprise tablets with an IntelliSkin® protective sleeve. This dock allows you to keep the device charged through the pogo pin contacts when the device is docked—power is provided by connecting to the dock's USB Type-C connector. The dock also allows the tablet's scanning function to work on the side, as well as tablet add-ons such as the Zebra Expansion Back and PowerPack Battery. This vehicle dock is compatible with C and D size RAM® 4-hole AMPS and 75mm x 75mm VESA pattern bases for attaching a double socket arm in order to complete your mounting solution. Take the solution a step further by taking advantage of the built-in 2-hole mounting plate compatible with RAM® 2-hole diamond base for additional device mounting such as a phone or other handheld device. Always Protected. Always Connected.®</p>
