- Supports Power Delivery via integrated 1m long USB Type-C male cord
- Power output of 20V @ 3A max
- Supports USB 2.0 Data Transfer @ 480Mbps
- Backed by a 3-year warranty

PRODUCT INFORMATION**OVERVIEW**

The GDS® Desktop Dock with Power Delivery - Large Tablets (RAM-GDS-DOCK-D9U) is a low-profile docking and charging station for larger tablets wrapped in an IntelliSkin® protective sleeve. For phones and smaller tablets, consider the RAM-GDS-DOCK-D7U. This desktop dock provides power connectivity and is designed for everyday use. The dock features pogo pin contacts designed to match the pogo pads on IntelliSkin®-wrapped devices supporting USB Type-C charging profiles. The USB Type-C charging cable is integrated into the back of the dock with a power output of 20V @ 3A max. This dock will support all USB Type-C devices wrapped in both IntelliSkin® and IntelliSkin® Next Gen devices. Always Protected. Always Connected.®
