FEATURES

- Adapter designed for the official Apple MagSafe® Charger (2020) (not included)
- Compatible with any RAM® B size ball and socket components
- Backed by a lifetime warranty

PRODUCT INFORMATION

OVERVIEW

The RAM® Ball Adapter for Apple MagSafe® Charger (RAP-B-202-AP-MAG-1U) is designed to integrate the official Apple MagSafe® Charger (2020) into RAM® ball and socket mounting systems, providing a secure, reliable in-vehicle mounting solution. This adapter offers a snug, precise fit for the original Apple MagSafe® charging puck, allowing compatible iPhone models to magnetically snap into place when properly aligned. It connects to RAM® B size socket arms, unlocking a wide range of mounting bases for flexible installation throughout your vehicle. This product is compatible with the original Apple MagSafe® Charger released in 2020. It is not compatible with the newer Apple MagSafe® Charger released in 2024 and later. Not sure which MagSafe® charger you have? If your charger cable is braided, it is a newer 2024+ MagSafe® Charger. If the cable is smooth with a soft rubber casing, it is the original 2020 MagSafe® Charger.
