GDS® Hardwire Power Cable with Dual SAE Splitter

Part #: RAM-GDS-CAB-SAE-SPLIT **UPC:** 793442016356

FEATURES

- SAE Splitter for multiple chargers to be used with a single hardwire connection
- Eliminates the need for multiple hardwire connections direct to battery
- Protective dust caps included for each SAE connector
- 3-meter cable length
- Backed by a 3-year warranty

PRODUCT INFORMATION	
OVERVIEW	The GDS® Hardwire Power Cable with Dual SAE Splitter (RAM-GDS-CAB-SAE-SPLIT) can be added to any device mount & charging system to adapt multiple chargers to a single hardwire connection. This splitter eliminates the need to install multiple wires to the battery terminal, with a quick and easy SAE connection for each charger source. Included with each SAE connector is a protective cap for any event where a charger needs to be temporarily disconnected. Always Protected. Always Connected.®

SPECIFICATIONS
