RAM® Drill-Down Mount for Apple MagSafe (2020)

Part #: RAM-B-102-AP-MAGU **UPC:** 793442015229

FEATURES

- Adapter designed for the official Apple MagSafe® Charger (2020) (not included)
- Includes B size medium length socket arm and diamond ball base featuring universal AMPS hole pattern for drill-down mounting
- Ball and socket technology allows for near-infinite adjustability
- Backed by a lifetime warranty

PRODUCT INFORMATION	
OVERVIEW	The RAM® Drill-Down Mount for Apple MagSafe® Charger (2020) (RAM-B-102-AP-MAGU) is designed to integrate the official Apple MagSafe® Charger (2020) into RAM® ball and socket mounting systems, providing a secure, reliable in-vehicle mounting solution. This adapter offers a snug, precise fit for the original Apple MagSafe® charging puck, allowing compatible iPhone models to magnetically snap into place when properly aligned. Included in this kit is the RAM® B size diamond ball base with 2-hole AMPS pattern and B size medium length socket arm, perfect for drill-down mounting in your vehicle. This product is compatible with the original Apple MagSafe® Charger released in 2020. It is not compatible with the newer Apple MagSafe® Charger released in 2024 and later. Not sure which MagSafe® charger you have? If your charger cable is braided, it is a newer 2024+ MagSafe® Charger. If the cable is smooth with a soft rubber casing, it is the original 2020 MagSafe® Charger.
