RAM® Tough-Wedge™ Base

Part #: RAP-407BU UPC: 793442948213

PRODUCT INFORMATION	
OVERVIEW	The Tough-Wedge™ is a seat wedge mount that fits in the gap between the vehicle seat and center console; allowing easy access and operation of your mobile device. The Tough-Wedge™ can also be used for back-seat applications, inserted into the pockets located on the back of the front seats. For capturing video on the go, place the Tough-Wedge™ in your backpack with a RAM camera mount. The included diamond adapter contains the industry standard AMPS hole pattern that allows attachment to a variety of RAM mounts. Hardware included to attach the Tough-Wedge™ to the mount.
